**NEW! POSITIVE BAG OPENING FEATURE**

(Patent Pending)

- provides for reopening of closed zippers, minimizing wastage and maximizing production

**Wicketted Bagging & Sealing System**

Automatic Wicketted Bagger designed to bag and seal a wide variety of product in various sizes and types of both poly and laminated pre-made bags.

**FEATURES and BENEFITS:**
- Fast, tool free, bag changeover
- Compact footprint
- Uniquely designed sealhead neatly seals, trims, and codes in one operation
- Low cost equipment alternative for filling of specialty bags, including press to close zipper, slider, and stand-up pouches
- Operator friendly touch screen control
- Communicates with most feeder devices
- Gentle product handling

2 year limited warranty on JMC parts.

At JMC Innovation Never Stops

**JMC**

SINCE 1961

Hot Air Sealers • Adjustable Automatic Master Balers • Automatic Bulk Bagger
A fully automatic wicketted bagger, designed to open the bag, receive a charge from most types of feeding devices, seal the bag with an integral heat sealer, and then transfer the finished bag onto a discharge conveyor. Will also accept hand feeding when equipped with a foot pedal.

**STANDARD FEATURES:**
- P.L.C. (programmable logic controller)
- Temperature and speed controlled seal head complete with pneumatic scrap removal and bagtop trimmer
- Stainless steel product contact surfaces
- Automatic bag discharge
- Take away conveyor with adjustable discharge height
- Adjustable infeed hopper
- Integral electrical control panel which can be interfaced to a product feeding device
- Auxiliary blower for oversized product bags (on WBS 0918 only)
- Touch Screen Control
- Low Bag Supply Warning

**OPTIONS:**
- Bag Saddle (recommended for weights over 5kg./11lbs.)
- Integral embossing date/lot coder 10 digit capacity
- Dust Extraction Nozzle - ready to be hooked up to existing dust collecting system
- Spare Parts Kit
- Stainless Steel option for light washdown capability
- Mobility Kit
- Positive Bag Opening Device (patent pending) for reopening zipper bags
- Horizontal Jaws for positive presentation of side seam type, laminated pouches
- Vibratory Bag Saddle to assist in product settling
- Vibratory Infeed Chute to reduce product bridging
- Gas Flush
- Front Access Scrap Bin
- Settling Conveyors to reduce void in cartons
- Foot pedal for hand feeding

**SPECIFICATIONS:**
Production capacity: up to 20 bags per minute (see your representative)
Power requirement: 115v 10amp (WBS 0612, WBS 0815) 208Y120 (WBS 0918)
Air requirement: 3 CFM @ 80 PSI
Material capacity: LDPE films from 1 through 6 mils
Shipping weight: Approx. 985 lbs.
